Horizon

The Horizon collection captures the intrigue of gradients with technical textiles encapsulated in Varia, and complementary etched glass designs.

Artfully balance privacy and togetherness with materials that diffuse natural light and bring unexpected warmth and texture to shared spaces.

Varia | Horizon Beam

Hardware | Suspend, Stainless Steel

Varia | Horizon Beam

Hardware | Suspend, Stainless Steel

Rich Woven Patterns

Tonal shades inspired by changing light at dawn, dusk, and stormy skies come to life in woven textiles captured in translucent Varia.

Varia | Horizon Day

Hardware | ILTUO, Pebble Gray Matte

Visual Connectivity

Heavier gauge yarns are concentrated toward the bottom and become more delicate as they travel up, allowing natural light to pass through partitions.

Sophisticated Etched Glass

Inspired by the Horizon textile, the etched pattern features pleasantly imperfect horizontal lines in a gradient pattern.
